## **CUB SCOUT NOVA AWARD - SWING (ENGINEERING)**

Additional requirement sheets and helps are available from <a href="ScouterMom.com">ScouterMom.com</a>.

This module is designed to help you explore how engineering and simple machines called levers affect your life each day.

- 1. Choose A or B or C and complete ALL the requirements.
- 1A. Watch an episode or episodes (about one hour total) of a show about anything related to motion or machines. Then do the following:
- 1A-1. Make a list of at least two questions or ideas from what you watched.
- 1A-2. Discuss two of the questions or ideas with your counselor.
- 1B. Read (about one hour total) about anything related to motion or machines. Then do the following:
- 1B-1. Make a list of at least two questions or ideas from what you read.
- 1B-2. Discuss two of the questions or ideas with your counselor.
- 1C. Do a combination of reading and watching (about one hour total) about anything related to motion or machines. Then do the following:
- 1C-1. Make a list of at least two questions or ideas from what you read and watched.
- 1C-2. Discuss two of the questions or ideas with your counselor.
- 2. Complete ONE adventure from the following list for your current rank or complete option A or B. (If you choose an Adventure, choose one you have not already earned.) Discuss with your counselor what kind of science, technology, engineering, and math was used in the adventure or option.
- 2-Adventure 1. Motor Away (Wolf)
- 2-Adventure 2. Paws of Skill (Wolf)
- 2-Adventure 3. Baloo the Builder (Bear)
- 2-Adventure 4. A Bear Goes Fishing (Bear)
- 2-Adventure 5. Adventures in Science (Webelos)
- 2-Adventure 6. Engineer (Webelos)
- 2-Option A: With your parent's permission, take an old or broken household or mechanical item, break it down into its component pieces, and identify the purpose of five parts. Suggested items include a keyboard, floppy disk,telephone, VCR, tape deck, bicycle, people counter, printer or similar item. Make sure to use appropriate safety precautions.
- 2-Option B: Participate in two sports, either as an individual or part of a team, and identify the levers used in each sport.
- 3. Explore EACH of the following:
- 3A. Levers
- 3A-1. Make a list or drawing of the three types of levers. (A lever is one kind of simple machine.)
- 3A-2. Show
- 3A-2a. How each lever works
- 3A-2b. How the lever in your design will move something

- 3A-2c. The class of each lever
- 3A-2d. Why we use levers
- 3B. On your own, design, including a drawing, sketch, or model, ONE of the following. Be sure to show how the lever in your design will move something.
- 3B-1. A playground fixture that uses a lever
- 3B-2. A game or sport that uses a lever
- 3B-3. An invention that uses a lever
- 4. Do the following:
- 4A. Visit a place that uses levers, such as a playground, carpentry shop, construction site, restaurant kitchen, or any other location that uses levers.
- 4B. Discuss with your counselor the equipment or tools that use levers in the place you visited.
- 5. Discuss with your counselor how engineering and simple machines affect your everyday life.
