Constellation Matching Game

How to play Constellation Concentration

1. Print out two sets of the cards (above).
2. Cut the cards apart. You should have 24 cards total.
3. Randomly place the cards printed side down on a flat surface.
4. Have the first Scout turn over two cards.
 - If they match, the Scout keeps the cards and tries to find another match.
 - Otherwise they are placed printed side down in their original position.
5. The next Scout comes forward and tries to make a match.
6. Continue playing until all of the matches have been found.
