

CRASH COURSE GAME

<https://scoutermom.com/33228/crash-course-game/>

Materials

- Set of 6 inner tubes

Instructions

1. Divide the group into 2 teams.
2. Have half of each team stand in four corners of the field, so that the groups from the same team are diagonal to each other.
3. Give one half of each team 3 inner tubes.
4. The first player on each team stacks the three inner tubes and steps into them. They will look a little like the Michelin Man.
5. On go, they race across to their team on the diagonal side. Some contact is permitted in the middle, but nothing excessive.
6. When they get to the other side, they take off the three inner tubes and the next person puts them on and races across the diagonal.
7. The first team to move all of their members to the corner opposite the one they started in is the winner.
