

HOW TO MAKE SEED MOSAICS

<https://scoutermom.com/63/seed-mosaics-craft/>

Materials

- Assorted seeds (dried beans, popcorn kernels, sunflower seeds, lentils, squash seeds, rice, etc.)
- One piece of stiff cardboard for each scout
- glue
- scissors

Instructions

1. Cut the cardboard into a simple shape (circle, heart, square). Remind them that simple shapes are easier to cut. It might help if you draw the shapes for them. OR let them do a freestyle pattern.
2. Spread glue on a small area of the cardboard.
3. Set some seeds into the glue. Use different types of seeds to make a pattern.
4. Move to another section of the cardboard and repeat the glue and seeds.
5. Let the mosaics dry.
6. Add a ribbon or piece of string to the back to form a hanger.
