

SHARKSICLES RECIPE

<https://scoutermom.com/6299/sharksicles-recipe/>

Equipment

- Make your own popsicle molds or reusable molds

Ingredients

- Blue Kool Aid - made according to package directions
- Gummy sharks

Instructions

- Pour the kool-aid into the popsicle molds
- Add a shark to each mold
- Freeze overnight (or until frozen)

Notes

The sharks will “melt” a little bit in the liquid, but if you don’t disturb them too much they should still look like sharks.

You can also use clear kool aid mix if you can find it.
