Equipment

- 1 soccer ball for each participant

Instructions

1. Explain the boundaries of the game first. If you don't want them dribbling their balls across the street, now is the time to tell them.
2. Let one Scout be the leader. The other Scouts line up behind him.
3. The leader dribbles the ball, making sharp turns or avoiding obstacles . He can be as creative as he likes. The others follow him, dribbling their balls and trying to imitate him as closely as possible.
4. Switch leaders every couple of minutes. Make sure everyone gets a chance to lead.
