

# APPLE SMILES RECIPE

<https://scoutermom.com/1254/apple-smiles-recipe/>

## Equipment

- Cutting board
- Knife for cutting apples
- Knife for spreading peanut butter

## Ingredients

- 2 red apples
- peanut butter (or substitute caramel spread)
- 16 miniature marshmallows

## Directions

1. Cut apples into 8 wedges each
2. Spread two wedges with peanut butter on the cut sides
3. Put the peanut buttered sides together with two marshmallows stuck in the middle.
4. Repeat with remaining ingredients.

Makes 8 Apple Smiles

## Notes

If you are worried about nut allergies and the peanut butter, use a caramel spread for these Apple Smiles instead. Don't microwave it before using it as this will make it too thin. Use it at room temperature. Or if you think it needs to be even thicker, refrigerate it beforehand.
