

TRAILBLAZER RELAY RACE

scoutermom.com

Materials:

- Four cones or markers to designate the start and finish lines
- Several small objects to act as "supplies" (e.g. rope, water bottles, sticks, blankets, etc.)

Instructions:

1. Divide the scouts into two teams and line them up at the starting line.
2. Place the "supplies" in a pile at the other end of the room or field.
3. On the signal, the first player from each team must race to the supply pile, grab one object, and race back to their team's starting line.
4. Once they reach their team's starting line, they must hand off the object to the next player in line, who then repeats the process.
5. The first team to have all players complete the relay wins.

To add an extra challenge, you can place obstacles along the relay race course, such as hula hoops or cones, that players must navigate around.
